

## **Aquin's LawCard®-Forum hit the mark!**

On February 14th, the Aquin Group organized the first LawCard®-Forum. 17 Compliance Officers from 9 well-known capital investment companies and custodian banks located in Germany, as well as a representative of the biggest German organization for Asset Management (BVI) took part at the forum. The main topics concerned the amendment of the German Investment Act and "Eligible Assets."

The experts of Aquin presented their interpretation of the amendment and how it will be integrated in MIG21. Later on, discussions gave the opportunity to exchange opinions about the practical impacts of the amendment and to clear up potential differences in interpretation.

Because of the positive feedback from the participants, the LawCard®-Forum will take place on a regular basis as well as for special occasions, such as amendments. Another forum has also been planned to take place in Luxembourg this year.

We look forward to seeing you at the next LawCard®-Forum!
