

Arrowpoint Capital Chooses ePAM® from Princeton Financial®

PFS' hosted investment accounting solution reduces accounting costs without compromising quality

Princeton (NJ), 11 August 2010. Arrowpoint Capital, an insurance group, has selected ePAM® from Princeton Financial® Systems (PFS) as its hosted investment accounting solution.

With USD 2.5 billion in assets invested in fixed income and equity securities, Arrowpoint requires a sophisticated investment accounting solution. It is also important to Arrowpoint to have a smooth conversion to the new system, maintaining the same key functionalities as before without investing a significant amount of time and money. ePAM meets those needs, since it can be seamlessly integrated with the organization's General Ledger system.

"With ePAM®, we are able to reduce our technology infrastructure and operating costs and have the benefit of a market-leading investment accounting system," said Mr. Davenport, Controller at Arrowpoint Capital.
